Hello,

Here is the ONLY proof we will provide. We cropped the picture to hide sensitive data. This picture is 10% of what we know about leaked infos. If you need more proof, this is a deal breaker. We can't provide more infos as proof and phone call isn't an option as already said. We do not seek anything. We offer help, you accept or deny. We are anonymous.

NOTE : Enjoy this ILLEGAL app key so you can kill his interface and sue him. That key was sold, we have proof of the transaction.

Thanks

Mr. Gilvach:

Your demands for Bitcoin are vague. While HP Tuners is interested in learning the information you possess and is willing to provide a "reward" for such information, it is unclear what you are seeking and unless and until we see some trace of evidence to validate your information and determine that your information is credible, it is difficult to move forward with a deal. HPT has information from various sources and it is critical that we are able to verify the information you have and determine the credibility of such information before providing any such "reward." Again, I suggest we schedule a telephone conference to discuss these matters. To the extent you are concerned about revealing your identity, you can certainly alter your voice or take such other measures to conceal your identity.

Regards,

Andrew P. Bleiman

Hello,  
We have to see if a deal is possible before sending any proof. Once we have a deal we can make the verification process. We have very sensitive information that will be very useful don't worry for that. We are offering our service to you. You can accept or refuse it up to you. HP Tuners can turn our information into a couple hundred thousand plus the closure of the Syked Co.

Hello,

You are right but all pictures are very clear. One picture is enough to make you win. What we can do is crop one of them when someone generate a KEY with the hp tuners keygen. With no name. Only the prompt box with a generated key so you can validate. Those picture are showing someone gen a key and selling it. For others infos it's too sensitive to have proof.
